**BUREAU OF LABOR STATISTICS.**

The reports of the Bureau of Labor Statistics were formerly published in the form of annual and special reports, miscellaneous reports issued in compliance with congressional resolution, and bimonthly bulletins. Prior to July 1, 1912, 25 annual reports, 12 special reports, 23 miscellaneous reports, and 100 bimonthly bulletins were published. Since that date the publication of the annual and special reports and of the bimonthly bulletins has been discontinued and a bulletin has been published at irregular intervals. Each bulletin contains matter devoted to one of a series of general subjects, these subjects being Wholesale prices, Retail prices and cost of living, Wages and hours of labor, Employment and unemployment, Women in industry, Workmen's insurance and compensation, Industrial accidents and hygiene, Conciliation and arbitration, Labor laws of the United States, Foreign labor laws, Vocational education, Labor as affected by the war, Safety codes, and Miscellaneous.

In July, 1915, the issue of a Monthly Review was begun. This publication constitutes the medium through which the bureau publishes the results of original investigations too brief to be presented in the form of monograph bulletins; notices of labor legislation by the States or by Congress and court decisions affecting labor which from their importance should be given attention before they could ordinarily appear in the annual bulletins devoted to these subjects; information concerning current work of this bureau, the other bureaus of the Department of Labor, and any other Federal, State, and municipal agencies dealing directly with labor matters. With the July, 1918, issue the name of this publication was changed to Monthly Labor Review. The special purpose of the Monthly Labor Review is to make available, regularly and promptly, information concerning various phases of the labor question, both in this country and abroad, which is not available in collective form through any other source.

The reports and bulletins of the Bureau of Labor Statistics are furnished gratis as long as the bureau has a supply available. The publications starred can no longer be furnished, the supply of these having been exhausted. Usually, however, copies of these reports may be secured by purchase by addressing the "Superintendent of Documents, Government Printing Office, Washington, D. C." who aims to keep on hand a small supply of each Government publication for sale at cost. Beginning with the July, 1920, number, the Monthly Labor Review has been issued on a subscription basis, the rate being 15 cents per copy, or \$1.50 per year. Remittances should be made to the Superintendent of Documents, Government Printing Office, Washington, D. C.

The reports which have been published as Senate and House documents, and not as numbers of the regular series of bureau reports, and which are found in this list under the heading "Miscellaneous Reports," usually may be secured only from Members of Congress and from the Superintendent of Documents of the Government Printing Office; those which have not been starred can be furnished gratis.
